

# Perrydale School Board Action Plan

Your Perrydale School Board has implemented the following action plan to better serve our students, school, and community. The following categories further explain the ways we can be more effective in serving in those capacities.

## Community Engagement

- Strive for more open communication between the Board, staff, community and students.
- Continue using our web page and newsletter, phone messenger service, and social media to announce important events, adding Board email addresses to be more available to those we serve.
- Participate in Oregon School Board Association opportunities, seminars, and trainings.
- Complete a Board self evaluation annually.
- Continue school-wide teacher conferences and back-to-school activities to keep parents informed of school expectations.

## Curriculum

- Offer career readiness certified programs, and stress proficiency in math, language arts, science, and social science.

## Facilities

- Determine needs for facility maintenance and growth.
- Provide quality maintenance to existing buildings and grounds.

## Finances

- Continue financial stability through effective budget management and conservative budgeting, maintaining a healthy contingency.
